1. INTRODUCTION

The Center for the Study of Organizations and Decisions in Economics (CODE) is a research center at the Universitat Autònoma de Barcelona, created in 1995 to promote high quality research in the theory of economic decisions and organizations. Since the beginning of its activities, CODE's main goal is to provide an environment spurring for excellence in research as measured by the highest international standards of scientific quality.

CODE's permanent members belong to the Department of Economics at the UAB, which has lead Research in Economics in Spain for the last twenty five years. The Department is still the natural meeting point for those activities, like undergraduate and doctoral education, for which diversity of interests and abilities are most important.

The activity report strives to be a regular publication that is useful in getting our colleagues acquainted with our research interest. The present edition covers the activities performed during 2010.

In 2010, CODE has hosted 10 visitors from all over the world for stays ranging from one month to a year as well as 3 research trainees. Research activities can be grouped in five areas: Financial Economics/Macroeconomics, Industrial Organization, Mathematical Economics, Public Economics and Social Choice/Game Theory. All this research is developed through 14 research projects financed by the Spanish Ministry of Education, the Catalan Government (Generalitat de Catalunya) and the European Union. This activity has been materialized in 19 papers published in leading economic journals, 8 working papers, 3 chapters in books. Also CODE members are officers in scientific associations, and have participated in major academic meetings, both as organizers and as presenters.

We hope that this report reflects the commitment of CODE to build an increasingly consistent research center that can be taken as a reference point by top quality research within Europe and beyond.

2. MEMBERS

2.1. RESEARCHERS

- BARBERÀ SÁNDEZ, Salvador
Ph.D.: Northwestern University (1975)
Fields of Specialization: Public Economics, Social Choice, Coalition Formation.
- BEVIÁ BAEZA, Carmen
Ph.D.: Universidad de Alicante (1994)
Fields of Specialization: Social Choice, Public Economics.
- CABALLÉ VILELLA, Jordi
Ph.D.: University of Pennsylvania (1989)
Fields of Specialization: Finance, Macroeconomics.
- CONESA, Juan Carlos
Ph.D.: University of Minnesota (1999)
Fields of Specialization: Macroeconomics, Public Economics.
- MACHO-STADLER, Inés
Ph.D.: École des Hautes Études en Sciences Sociales, Paris (1989)
Fields of Specialization: Economics of Information, Industrial Organization, Public Economics.
- MARTÍNEZ-GIRALT, Xavier
Ph.D.: CORE, Université Catholique de Louvain (1988)
Fields of Specialization: Industrial Organization, Health Economics.
- MASSÓ CARRERAS, Jordi
Ph.D.: State University of New York at Stony Brook (1988)
Fields of Specialization: Game Theory, Social Choice.
- OLIVELLA CUNILL, Pau
Ph.D.: Northwestern University (1989)
Fields of Specialization: Economics of Information, Public Economics, Health Economics.
- OBIOLS HOMS, Francesc
Ph. D.: Universitat Pompeu Fabra, (1996)
Fields of Specialization: Macroeconomics. Aggregate Fluctuations.
- PÉREZ-CASTRILLO, David
Ph.D.: École des Hautes Études en Sciences Sociales, Paris (1991)
Fields of Specialization: Economics of Information, Game Theory, Industrial Organization.

2.2. ACADEMIC VISITS

BOGOMOLNAIA, Anna
Rice University
February - July

DHILLON, Amrita
University of Warwick
February - March

EGUIA, Jon X.
New York University
June

FORNI, Mario
Università di Modena
September - December

GÓMEZ RUA, María
Universidad de Vigo
November - Desember

HERRERO, Carmen
Universitat d'Alacant
November - January'11

MARTÍNEZ MORA, Francisco
University of Leicester
October - December

MATTOZZI, Andrea
California Institute of Technology
June - July

SASAKI, Hiroo
Rice University
March

WETTSTEIN, David
Ben-Gurion University of the Negev
January - February

2.3. RESEARCH TRAINEES

GRÖNERT, Valeska
Vanderbilt University
Fields of Specialization: Game Theory and Theory of Social Networks.
January-December 2010

MUTO, Nozumo
Hitotsubashi University
Fields of Specialization: Game Theory and Theory of Social Networks.
July-December 2010

PROTOPESCU, Dan
Université Aix-Marseille II.
Fields of Specialization: Decision Theory, Risk Theory, Control Theory and Game Theory.
January-December 2010

2.4. ADMINISTRATIVE STAFF

IGLESIAS HERNÁNDEZ, Conxa

MARTÍ PLADEMUNT, Blai

MORALES VERGEL, Daniel

ORTEGA LORENZO, Marta

3. AREAS OF RESEARCH

Financial Economics

Game Theory

Health Economics

Industrial Organization

Macroeconomics

Public Economics

Social Choice Theory

4. RESEARCH PROJECTS

A brief description is given of the research projects in which the members of CODE are involved. These projects are financed by the Ministry of Education and Science through the Inter-Ministerial Commission of Science and Technology, by the Government of Catalonia and by the European Community.

Title: Centre de Recerca en Economia de les Organitzacions (CREO) (2009SGR-00169)

Team coordinator: David Pérez-Castrillo.

Description: The main objective of our work is to understand why and how several organizations emerge, what environments promote their formation and which contracts or allocation mechanisms allow for the stabilization of the cooperation and the sharing of the related profits. We will deal with these questions on the basis of the tools used by game theory (cooperative and non-cooperative) and the models of industrial organization. A fairly important part of our effort will be framed in the areas about *Environmental Economy* and *Innovation Economy*. Another part is framed in the wider notion of Public Economy, as it deals with problems of *Health Economy* and *Design of mechanisms* and *Public Policy*. Lastly, we will also deal with studies of *Business Economy*.

Title: Coalitions, Incentives, and Networks in the Choice of Collective Decisions (2009SGR-00419)

Team coordinator: Jordi Massó Carreras.

Description: We study collective decision making and mechanism design in contexts where groups, networks, and coalitions play an important role in shaping the individual incentives, and in general, in determining the outcome of the social choice. Our main contribution to the collective decision making is that we want to put emphasis on the structures of relationships that connect agents (exogenous or endogenous) as well as on the individual incentives that such structures generate.

Title: Consolidating Economics (Consolider Ingenio 2010)

Team coordinators: Xavier Martínez-Giralt.

Description: Consolidating Economics is a network of the top research institutions in Spain under the leadership of Andreu Mas-Colell. It integrates researchers from CODE and Department of Economics at Universitat Autònoma de Barcelona as well as researchers from Universitat Pompeu Fabra, IESE, IAE, CREI, Universidad Carlos III de Madrid, CEMFI, and FEDEA. Some general aims of the network are (i) foster and project economics research in different areas of science, both theoretical and applied, where a position of international prestige has already been attained; (ii) strengthen interdisciplinary links; (iii) carry out actions to promote and structure economics research in Spain on a level of global prestige; and (iv) encourage activities to increase international co-operation and projection, aimed particularly at Europe and Latin America.

Title: Energía y sociedad

Team coordinator: Xavier Martínez-Giralt.

Description: Advising for the development of an Internet site (www.energiaymercado.es) integrated in the Iberdrola Campus dedicated to the spreading and exchange of information and content related to the liberalized markets of energy whose objective is to contribute to the analysis and understanding of these markets and to the diffusion of the benefits that offer to the society.

Title: Fiscal policy: generational tax incidence and the interaction with the market structure (ECO2009-09847)

Team Coordinator: Jordi Caballé.

Description: This research project is aimed studying different aspects of fiscal policy in dynamic equilibrium environments. The specific topics within this field that this projects would like to analyze are generational tax incidence, fiscal policy under non-competitive and incomplete markets and the relationship between macroeconomic policy and financial markets.

Title: Macroeconomic analysis group: Economic implications of habit formation in consumption (2009SGR-00350)

Team coordinator: Jordi Caballé Vilella.

Description: The main subject of research of this group is the study of different aspects of the macro-economic politics, either fiscal or monetary, in dynamic economies of general equilibrium. Next are the different contexts in which these analyses are carried out: open economies, with incomplete markets, with fiscal evasion, with heterogeneous agents and with habits in the preferences. The goals of this project of research are to carry out three contributions to the analysis of the fiscal politics in economies of dynamic general equilibrium. The first analyzes the measurement of the intergenerational fiscal incidence. The second analyzes the optimum fiscal treatment of the policy of inversion and distribution of dividends of the companies. The third studies the effects of the fiscal policy under incomplete markets and idiosyncratic crashes.

Title: Innovation Economics and Helth Economics: Market behaviour and Mechanisms (ECO2009-07616)

Team coordinator: Inés Macho-Stadler.

Description: The main goal of our project is to understand why and how different organizations emerge, which conditions stimulate their emergence, and which contracts or sharing rules maintain cooperation and allow the sharing of its associated benefits. We are also interested in the interaction between market institutions and their

optimal regulation.

A major part of this project lies in the broad area of Public Economics, specifically in Economics of Innovation and Health Economics. We are also interested in the areas of Industrial Economics of Economics of the Firm. Some methodological contributions on Mechanism Design and Contract Design, which are orthogonal to all the previous fields, will also be addressed.

Title: Institutional Design and Good Governmental Practice: Theory, Applications and Simulations (ECO2008-04756/ECON)

Team coordinator: Salvador Barberà.

Description: Institutional design plays an important role in economic analysis, evidence of which is the recent award of the Nobel Prize to Hurwicz, Maskin and Myerson. The purpose is to analyze mechanisms, existing or theoretically motivated, that will lead agents to behave efficiently. Among these mechanisms we find auctions, voting procedures, matching mechanisms, rationing rules, negotiation schemes, and any market or arbitrage situation. We propose to further study issues in this general area, which has been the unifying topic in our previous projects, although incorporating new lines of research. On the theoretical aspects, we wish to emphasize the problems of information and networks, and to revise basic concepts, like the notion of rationality, in light of the new behavioural theories. On the applied side, we focus mainly on the mechanisms used by public authorities like schools, universities or hospitals to assign students or interns. Methodologically, we incorporate simulations as a method to analyze models that given their high complexity are not tractable through theoretical analysis only. In terms of the topics we address, we widen our studies to issues previously unexplored by our team, such as the decisions concerning science and innovation and aspect of international bargaining. In any case we remain committed to issues of efficiency and justice in order to guide institutional design.

Title: Red Española de Elección Social (Acciones Complementarias) (SEJ2007-30297-E/ECON)

Team coordinator: Jordi Massó Carreras

Description: The aim of the network is to organize a series of meetings with the objective that researches in Spain matching on Social Choice can exchange ideas and present work in progress.

Title: The European Spallation Neutron Source (ESS)

Team coordinators: Xavier Martínez Giralt, David Pérez-Castrillo.

Description: Participation in The European Spallation Neutron Source (ESS) within ESS-Bilbao team. The particular tasks to be developed concern (i) the analysis of potential sources of ESS exploitation income. In particular, the research of actual and potential industrial uses and users as well as the pricing policies and (ii) a detailed analysis of the pros and cons of models of governance of presently functioning European science laboratories.

Title: Workshop on Information, Dynamics and Political Decision Making (ORG2010-29)

Team coordinator: Salvador Barberà.

Description: Political decision making involves constraints that make the process more complicated than merely identifying the best policy. For instance, imperfectly informed citizens may not always reward leaders who enact good policies, particularly if these policies deliver observable hardship today, and defer satisfaction to the future. Moreover, agents with diverging preferences often disagree about which policies are best. We seek to understand how things such as accountability, limited information and dynamic trade-offs influence policy-making in a diverse society, with the ultimate goal of designing institutions that create incentives to pursue policies that generate greater aggregate welfare.

Title: ICREA Acadèmia (2009 edition)

Team coordinator: Jordi Caballé Vilella

Description: ICREA Acadèmia Program aims to encourage excellence and reward excellence researchers permanent in public universities.

Title: ICREA Acadèmia (2008 edition)

Team coordinator: Juan Carlos Conesa Roca

Description: ICREA Acadèmia Program aims to encourage excellence and reward excellence researchers permanent in public universities.

Title: ICREA Acadèmia (2008 edition)

Team coordinator: Jordi Massó Carreras

Description: ICREA Acadèmia Program aims to encourage excellence and reward excellence researchers permanent in public universities.

Title: ICREA Acadèmia (2008 edition)

Team coordinator: David Pérez Castrillo

Description: ICREA Acadèmia Program aims to encourage excellence and reward excellence researchers permanent in public universities.

Less than a month

11. ADVISING Ph.D. THESIS

ERDEM, Magdalena
"Essays on Bounded Rationality"
Placement: Bank for International Settlements, Switzerland
Thesis advisor: Conesa, Juan Carlos

KWIATKOWSKI, Andrzej
"Essays on Education Economics and Contest Game Theory"
Placement: University of Dundee, United Kingdom
Thesis advisor: Beviá Baeza, Carmen

GUO, Bing
"Essays on Economics of Organizations"
Placement: Universidad Carlos III, Spain
Thesis advisor: Macho Stadler, Inés

12. COMMITTEES

BARBERÀ SÁNDEZ, Salvador

- Corresponding Member of the Academia Nacional Argentina de Ciencias Económicas (since 2008)
- Jury of the "Calvo-Armengol International Prize" (since 2008)
- Jury of the "Chairs of Excellence Program, Universidad Carlos III–Bank of Santander" (since 2008)
- Jury of the "Social Choice and Welfare Prize" (2002 and 2009 editions)
- Member of the Advisory Council of the IDEAS Programme (since 2007)
- Member of the "Comitè Permanent d'Experts del Pacte Nacional per a la Recerca i la Innovació" (since 2007)
- Member of the Council of the Social Choice and Welfare Society (since 1990)
- Member of the "Conseil d'Administration, Jean Jacques Laffont Foundation" (since 2007)
- Member of the External Panel of the ACADEMIA Program (ANECA) (since 2008)
- Member of the "Jurado del XX Premio de la Fundació Catalana per a la Recerca i la Innovació (FCRI)" (2009 edition)
- Member of the "Patronat de la Fundació de la Barcelona Graduate School of Economics" (since 2006)
- Member of the Urrutia Elejalde Foundation (since 1997)
- National expert "IDEAS Program", European Commission (since 2007)

CABALLÉ VILELLA, Jordi

- Scientific Advisory for the National Science Foundation (USA)

MACHO-STADLER, Inés

- Council Member of the European Economic Association (2006-2010)
- EARIE Executive Committee Member (2008 – 2013)

MASSÓ CARRERAS, Jordi

- Elected Member of the Council of the Society for Social Choice and Welfare (2006-2010)
- Member of Agencia Nacional de Evaluación de la Calidad y Acreditación (since 2009)
- Member of Agència per a la Qualitat del Sistema Universitari de Catalunya (since 2009)
- Member of Agencia Nacional de Evaluación y Prospectiva (since 1996)
- Member of Agència de Gestió d'Ajuts Universitaris i de Recerca (since 2003)
- Scientific Advisory for the Israel Science Foundation (Israel)
- Scientific Advisory for the National Science Foundation (USA)

Olivella Cunill, Pau

- Scientific Committee of German Federal Ministry of Education and Research (2010)

PÉREZ-CASTRILLO, David

- Officer of the Executive Committee of the Spanish Economic Association
- Research Fellow at CESifo
